EDUCATION

Vellore Institute of Technology, Vellore

2023 – 2027

B.Tech in Computer Science and Engineering – CGPA: 8.43 (July 2026)

Vellore, Tamil Nadu

The Scholars' Arena English Medium Secondary School

2022

CBSE Class XII (PCM) – 90.4%

Udaipur, Rajasthan

The Scholars' Arena English Medium Secondary School

2020

CBSE Class X – 83.0%

Udaipur, Rajasthan

PROJECTS

Hyper – Sports Booking Application

2025

Expo, Spring Boot, PostgreSQL, GitHub Actions, Docker

🐙 [GitHub](#) — ▶ [Play Store](#) — 🍏 [App Store](#)

- Built and deployed a production-grade sports booking application available on Google Play Store and Apple App Store for real users to book sports facility slots.
- Developed scalable Spring Boot REST APIs with layered architecture, DTO-based validation, centralized exception handling, JWT authentication, and role-based access control.
- Implemented concurrency-safe slot booking using encrypted slot keys, transactional revalidation, pessimistic locking, payment-state based slot blocking, and scheduled cleanup jobs to prevent double bookings.
- Integrated Razorpay payments with webhook-driven confirmation, idempotent event handling, timeout recovery, refund workflows, and failure-safe booking state transitions.
- Designed the PostgreSQL data model with Flyway migrations and optimized JPA/Hibernate queries for dynamic pricing, resource allocation, settlements, and ledger reporting.

Video Streaming Platform with Event-Driven Microservices

2026

Spring Boot, Kafka, AWS S3, PostgreSQL, FFmpeg

🐙 [GitHub Repository](#)

- Built an event-driven video streaming platform with separate microservices for content catalog, video upload, encoding, and playback.
- Implemented Kafka-based asynchronous workflows to process video upload and encoding events across distributed Spring Boot services.
- Developed an FFmpeg-powered transcoding pipeline to convert uploaded videos into adaptive HLS streams across 1080p, 720p, 480p, and 360p resolutions.
- Created secure streaming APIs using AWS S3 presigned URLs and structured content metadata stored in PostgreSQL.

TECHNICAL SKILLS

Languages: Java, Python, C++, SQL

Backend: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, REST APIs, JWT, Microservices, Transaction Management, Flyway

Databases: PostgreSQL

Messaging: Apache Kafka

Cloud & DevOps: AWS (EC2, S3, RDS, Elastic Beanstalk, CloudFront), GitHub Actions, CI/CD

Testing & Tools: Postman, Swagger/OpenAPI, Maven, Git, GitHub, IntelliJ IDEA, VS Code

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS

- Solved **150+ Data Structures and Algorithms problems** across LeetCode and GeeksforGeeks.
- Built and published a production mobile application on both the **Google Play Store and Apple App Store**.
